Extract from a letter No 3177, dated 31st August 1971, from the Government of India in the Finance Department, to the Government of Bengal.

4. The references made in your letter to a proposed formation of a Pension Fund by deduction from salaries probably arise from the orders in this Department, No 840, dated 16th June 1870, which contained, as models, certain rules in the Department of Bengal.
5. The Government of India, or a reconsideration of the whole subject, is disposed to withdraw the approval which it then expressed of the scheme set forth in these rules. There is an almost entire absence of data on which to estimate the amount of deduction which would be necessary to render such a Fund solvent, such calculations as can be made render it extremely doubtful whether five per cent is nearly enough to cover the contingent charge, and it is of course out of the question to guarantee the solvency of any such Fund. A pension Fund formed by deduction from Imperial Revenues the hands of the employer.
6. In the case, therefore of Local Funds which will, beyond a doubt, be able, without embarrassment, to meet the pensionary claims of employees it seems to the Government of India that it would be best, should the Local Government think proper to grant to the employees a right to pension to leave the pensionary claims to be met when they arise. And in the case of Local Funds regarding whose position there is not the same absence of doubt, it would appear to be the wisest course to abstain from making any absolute promise of pension. The ability of such funds to provide any pensions which, on special grounds, it may be deemed desirable to grant, can be more easily determined when the claim is presented for consideration than it can be at a time antecedent, by many years, to the actual accrual of the charge.
7. It might even be a matter for the consideration of the Local Government whether, considering the peculiar constitution of Local Funds, it would not be well, specially in the case of such as are of uncertain solvency or stability, to credit to a separate account the capital value of any pension granted. The necessity of providing at once the entire value of a pension, instead of throwing the charge forward upon future years, would, perhaps, afford a useful check against indiscriminate recommendations by those who have the management of the funds.

A pension Fund formed by deduction from salary is, perhaps, objectionable also on another ground, namely, that it to a certain extent, unnecessarily fetters the hands of the employer.

In the case, therefore, of Local Funds which will, beyond a doubt, be able, without embarrassment, to meet the pensionary claims of employes it seems to the Government of India that it would be best, should the Local Government think proper to grant to the employes a right to pension to leave the pensionary claims to be met when they arise.
